Concepts:

Object-Oriented Programming (OOP), RESTful APIs, UI/UX Design, Agile Development

PROFESSIONAL EXPERIENCE

Software Developer

June 2021 - Present

Miller Development Solutions

- Contributed to a **Secure Messaging Application** similar to Skype for a Swedish client using Vue JS and GraphQL.
- Delivered and currently maintaining a warehouse **Customized Logistics System** (desktop and mobile) for DSV Sweden's transport operations using C# .NET
- Collaborated with international clients to deliver custom software solutions

Software Developer

July 2019 - June 2021

Ultimate Builders Support Systems Inc.

- Developed **GraphiQS**, a graphics measurement application for construction plan analysis, enabling accurate PDF scaling and materials calculation for a New Zealand construction company
- Built **Plan Editor App**, a web-based measurement and annotation tool for construction plans
- Developed and maintained software solutions for construction and building support systems
- Worked on full-stack development projects using Java and SQL

Software Developer Intern

October 2018 - January 2019

Aestus Software Solutions

- Completed 3-month internship focusing on software development fundamentals
- Gained hands-on experience in professional software development workflows

FREELANCE EXPERIENCE

Freelance Software Developer

2019 - Present

- Delivered custom software solutions for clients across multiple countries
- Technologies used: Java, WordPress, React, PHP Laravel
- Projects ranged from web development to game modifications

KEY PROJECTS (FULL-TIME & FREELANCE)

Project	Description	Technologies
GraphiQS	Construction plan measurement & materials calculation/inventory app (New Zealand)	Java SE, Java FX, CSS, SQL
Secure Messaging App	Enterprise messaging platform (Sweden)	Vue JS, Typescript, GraphQL
Logistics System	Desktop & mobile logistics management apps for DSV (Sweden)	C# .NET, SQL, Angular
Construction Plan Editor	Web-based construction plan annotation tool (New Zealand)	Java, CSS
Minecraft MOD	A custom java Minecraft mod for Youtube content creation org. (USA)	Java, MinecraftForge
Payroll System	A payroll system/module for an accounting/book keeping app. (New Zealand)	React, Tanstack, Typescript, PHP, Laravel, Docker

EDUCATION

Bachelor of Science in Information Technology

AMA Computer College, Dumaguete City | 2015 - 2019

Additional Information

- Experience working with international clients (New Zealand, Sweden, USA)
- Strong adaptability to new technologies and frameworks
- Proficient in AI-assisted development workflows
- Excellent communication and collaboration skills
